

**CH 3-Year Follow-up Workgroup  
Teleconference Notes  
July 14, 2011 ~ 10 am CST / 11 am EST**

**Participating:** Irene Hong-McAtee, Kupper Wintergerst, KY; Ram Menon, MI; Samantha Blum, Monica Chaudhari, OH; Lisa Gorman, R4.

**Meeting Goals**

- a) Finalize clinician survey
- b) Finalize parent survey/interview
- c) Identify protocol adaptations needed by individual states if any

**Handouts**

Handout 1: Draft clinician survey  
Handout 2: Draft parent survey

- I. Welcome, Roll Call/Introductions by State (IL, IN, KY, MI, MN, OH, WI, Region 4) Wintergerst
  
- II. Clinician Survey Wintergerst/Group
  - Discussion:  
Wintergerst presented the revised clinician survey to the workgroup. The workgroup went through each question on the clinician survey. Each question was discussed value of the question for research objectives and whether the responses solicited would accomplish those objectives. Minor revisions were recommended.
  - Next steps:  
Wintergerst will make revisions for final clinician survey.  
  
Final Survey to be distributed with meeting notes.
  
- III. Parent Survey Wintergerst/Group
  - Discussion:  
Workgroup was uncertain about feasibility of conducting parent portion of the survey and did not want to spend a great deal of time on revisions until
  - Next steps:

feasibility questions get answered.

Region 4 staff

IV. Protocol

Discussion:

Group

Physician survey to be sent out by state labs and public health departments.

Health departments will be sending out a paper survey. A self addressed, stamped envelope will be mailed out with the surveys.

Resources to set up parent survey.

Group expressed concern that contact with parents would make it more difficult to get through IRB.

Identification number needs to be added to parent survey so that data is de-identified for MPHI.

V. Telemeeting Schedule - 2<sup>nd</sup> Thursday monthly @ 10 am CT / 11 am ET
