

**Region 4 EHDl Follow up Workgroup
Telemeeting Notes
Thursday, April 16, 2008 - 11 am CT / 12 pm ET**

- I. Follow up from March 20th telemeeting:
 - a. Table of EHDl screening and follow-up in Region 4 states:
 - i. Sally will follow up with MI to have information for the state added
 - ii. KY reps participating in the call agreed to provide the information for the state
 - iii. All members were asked to review the information, edit/clarify as necessary, and forward to Sally by 4/28. A revised chart will be developed and provided to the workgroup.
 - b. MN – early hearing registry: A face-to-face meeting is scheduled for May 28 in Chicago. MN is looking for early input into the long term follow up registry, prior to its' development. Barb will forward Sally the CDC Minimal Data elements as a place to start thinking about elements to include in a comprehensive registry. For those not able to participate, input is still welcome via email, telephone, fax, US Post. A telemeeting specific to this issue can be scheduled if there is interest.
 - c. Follow up protocols and Algorithms: Gary and Sally have now received follow-up protocols from every Region 4 State. Gary will be reviewing with an attempt to compare and contrast across Region 4 states. This will give us an idea of what is happening, what is similar, what varies. Any workgroup members interested in helping Gary with the first summary attempt are asked to email Gary or Sally.
- II. Brainstorming session (Refer to notes in Attachment 1)
 - a. Challenges - Identifying Problematic issues
 - b. Solutions – Addressing problematic Issues
